## Hostacom TRC 2016N NAT

Polypropylene Compounds

## **Product Description**

Hostacom TRC 2016N is a 10% talc filled PP copolymer, with high flowability, good impact/stiffness balance, high UV resistance and very good scratch resistance. Low emissions and low odor makes it the preferable choice for all kind of interior trim parts. Advanced technologies allow for a significant reduction of mineral filler which contributes to reduction of final part weight. The product is available in natural color for self-coloring.

This grade is not intended for medical, pharmaceutical, food and drinking water applications.

Application Interior Trims

Market Automotive

Processing Method Injection Molding

Attribute High Flow; Low Density
