## **Product Description**

Hostacom TRC 2189N G82A72 is a 10% talc filled PP copolymer, with good flowability, excellent impact/stiffness balance and superior scratch resistance. Product is available as a customized color matched, pellet form. This grade is delivered in G82A72 light space grey color version. New colors can be developed depending on customer requirements.

This grade is not intended for medical, pharmaceutical, food and drinking water applications.

Application Interior Trims

Market Automotive

Processing Method Injection Molding

Attribute Good Processability; Good Stiffness; High Impact Resistance; Scratch Resistant
