

Technical Data Sheet

Icorene 3545 GRY 7469

Linear Low Density Polyethylene

Product Description

Icorene 3545 is a linear low density polyethylene specifically developed for rotational moulding. This grade is suitable for use in general purpose applications. It has a good balance of properties such as toughness, easy flow and stiffness.

Processing Method Rotomolding

Attribute Good Flow; Good Processability; Good Toughness; High Stiffness; UV Resistant

Forms Powder

Appearance Natural Color; Unspecified Color

Additive UV Stabilizer

Application Containers; General Purpose; Tanks
