

## **Technical Data Sheet**

## Icorene 3560 GRN 6137

Linear Low Density Polyethylene

## **Product Description**

*Icorene* 3560 is a linear low density polyethylene specifically developed for rotational moulding. This grade is suitable for use in general purpose applications. It has a good balance of properties such as toughness, easy flow and stiffness.

Processing Method Rotomolding

Attribute Good Flow; Good Processability; Good Stiffness; Good Toughness; UV Resistant

Forms Powder

Appearance Natural Color; Unspecified Color

Additive UV Stabilizer

**Application** Containers; General Purpose; Tanks
