

Technical Data Sheet

Icorene 3590 GRY 7783

Linear Low Density Polyethylene

Product Description

Icorene 3590 is a linear low density polyethylene specifically developed for rotational moulding. This grade is a very fast processing material suitable for use in many different applications. It has a good balance of properties such as toughness, easy flow and stiffness.

Processing Method Rotomolding

Attribute Good Flow; Good Moldability; Good Processability; Good Stiffness; Good Toughness;

UV Resistant

Forms Powder

Appearance Natural Color; Unspecified Color

Additive UV Stabilizer

Application General Purpose
