

## **Technical Data Sheet**

## Icorene 3855 GRN 6207

Polyethylene, Medium Density

## **Product Description**

*Icorene* 3855 is a hexene medium density polyethylene with outstanding processability, specifically developed for rotational moulding. This grade is suitable for use in general purpose applications. It has a good balance of properties such as toughness, easy flow and stiffness.

Processing Method Rotomolding

Attribute Good Processability; Good Stiffness; Good Toughness; UV Resistant

Forms Powder

Appearance Natural Color; Unspecified Color

Additive UV Stabilizer

**Application** Containers; General Purpose

|   | Nominal |          |             |
|---|---------|----------|-------------|
| cal Properties                                    | Value   | Units    | Test Method |
| cal   |         |          |             |
| felt Flow Rate, (190 °C/2.16 kg)                  | 5.0     | g/10 min | ASTM D1238  |
