Icorene N7140 BLK 9905

Polyethylene, Unspecified

Product Description

Icorene N7140 is a polyethylene based coating powder designed for encapsulating wire goods for outdoor applications and has been formulated to achieve very high thermal stability. This grade is stress crack and abrasion resistance improved compared with standard polyethylene materials. Compared with standard wirework powders, this material will have improved flow behaviour, process faster and enable users to make savings through thinner coatings achieved at lower oven temperatures.
