

Technical Data Sheet

Moplen HF500H

Polypropylene, Homopolymer

Product Description

Moplen HF500H is a low flake form homopolymer for extrusion/injection moulding and compounding applications. It offers a good stiffness/impact balance and has a fine and very regular particle size distribution.

Moplen HF500H is designed for production of compounds and masterbatches. Typical applications are colour and additives masterbatches, mineral filled compounds and woodstock.

This grade is not intended for medical and pharmaceutical applications.
