Microthene MU76300	Gen. Variant: SDS_US_GHS
Version 1.2 Revision Date	e 10/02/2019 Print Date 01/04/2022 SDS No.: BE57
1. IDENTIFICATION OF THE SUE	3STANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING
Trade name CAS Number:	: Microthene MU76300 : 24937-78-8
Chemical characterization	: Polyethylene copolymer
Chemical name	: Ethylene-vinyl acetate copolymer
Synonyms	: Acetic acid, ethenyl ester, copolymer with ethene, Ethene, polymer with acetic acid ethenyl ester, EVA
Identified uses	: Manufacture of plastic articles by injection molding, extrusion or other conversion process.
Prohibited uses	: FDA Class III medical devices; European class III medical devices; Health Canada class IV Medical Devices;
	Applications involving permanent implantation into the body;
	Life-sustaining medical applications
<u>Company Address</u> Equistar Chemicals, LP	Company Telephone Customer Service 888 777-0232
LyondellBasell Tower, Suite 3	
1221 McKinney St. P.O. Box 2583	
Houston Texas 77252-2583	
<u>Emergency telephone num</u> EQUISTAR 800-245-4532	<u>ber</u>
E-mail address	: product.safety@lyb.com
Responsible/issuing person	
2. HAZARDS IDENTIFICATION	
GHS Classification	
Combustible dust	
Label elements	
Signal word	: Warning
Hazard Statements	: If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.

AFETY DATA SHEET	Ponciplastics.com
licrothene MU76300	Gen. Variant: SDS_US_GH
ersion 1.2 Revision Date 1	0/02/2019 Print Date 01/04/2022 SDS No.: BE
Notes to physician	
Symptoms	: Inhalation of process fumes and vapors may cause soreness the nose and throat and coughing.
Hazards	: Dust contact with the eyes can lead to mechanical irritation. Molten polymer may cause thermal burns.
Treatment	: Treatment of overexposure should be directed at the control symptoms and the clinical condition of the patient.
FIRE-FIGHTING MEASURES Suitable extinguishing media	: SMALL FIRE: Use dry chemical, CO2, or water spray,
	Use dry chemical, CO2, or water spray. : LARGE FIRES:
Unsuitable extinguishing media	Use water spray hose nozzles from a safe location. : None known.
Specific hazards during fire fighting	 Keep away from heat and sources of ignition. Dust particles from this product are combustible particulate solids that present a flash fire or explosion hazard when suspended in air. Polymer dust layer melts on the hot surface before ignition c occur In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, carbon dioxide and unburned hydrocarbo (smoke).
Special protective equipment for fire-fighters	: Wear approved positive pressure self-contained breathing apparatus and firefighter protective clothing.
Further information	 Combustible particulate solid, will decompose under fire conditions. Calorific Value: 8000 - 11000 kcal/kg Fight fire from safe distance with hose lines or monitor nozzle Heat from fire may melt, decompose polymer, and generate flammable vapors. Move containers from fire area if it can be done without risk. Evacuate immediately in the event of opening of storage container pressure relief devices or discoloration of container
	3 / 14

Ponciplastics.com
Gen. Variant: SDS_US_GHS
10/02/2019 Print Date 01/04/2022 SDS No.: BE571
Always stay away from tanks engulfed in fire. Do not attempt to get on top of storage containers involved in fire. Cool storage containers with large volumes of water even after fire is out.
SURES
 Equip responders with proper protection. Creates dangerous slipping hazard on any hard smooth surface. Equip emergency responders with proper personal protective equipment (PPE) Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Potential combustible dust hazard. Polymer particles create slipping hazard on hard smooth surfaces. May Contain trace amounts of light hydrocarbons, compounds of oxidation, aldehydes and acids In case of material degradation use appropriate respiratory equipment. For personal protection see section 8.
: Do not flush into surface water or sanitary sewer system.
 On land, sweep/shovel into suitable disposal containers or vacuum using equipment which avoids ignition risk. On water, material is insoluble; collect and contain as any solid. All recovered material should be packaged, labeled, transported and disposed of or reclaimed in conformance with applicable laws and regulations and in conformance with good engineering practices. Reclaim where possible.
Ig
 Avoid dust accumulation in enclosed space. Use dust collection systems designed per NFPA 654 to avoid dust accumulation. Avoid generating dust; fine dust suspended in air and in the

handle this product. Engineering controls, i.e. enclose exposures below acceptable cri full conformance, other enginee Equipment and vessels handling prevent dust explosions (inerting Ensure that dust-handling system	NFPA 654 (as amended and adopted) for equipment used to sed systems, should be used whenever feasible to maintain iteria. When such controls are not feasible, or sufficient to achieve ring controls such as local exhaust ventilation should be used. g combustible dust from this material should be designed to either g) or safely vent dust explosions per NFPA 654 ems (such as exhaust ducts, dust collectors, vessels, and igned in a manner to prevent the escape of dust into the work area he equipment).
Personal protective equipme	nt
Respiratory protection	 Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use appropriate respiratory protection where atmosphere exceeds recommended limits. Where workers could be exposed to dust concentrations above the exposure limit they must use appropriate certified respirators.
Hand protection	: Wear gloves that provide thermal protection where there is a potential for contact with heated material.
Eye and face protection	: Dust service goggles should be worn to prevent mechanical injury or other irritation to eyes due to airborne particles which may result from handling this product.
Skin and body protection	: Wear suitable protective clothing.
Hygiene measures	 Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the hazards and/or potential hazards that may be encountered during use. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities. Take off contaminated clothing and wash before reuse.

State Reporting

This material does not contain listed substance(s) known to the State of California to cause cancer, birth defects, or other reproductive harm that would require warning under the California Proposition 65 State Drinking Water and Toxic Enforcement Act.

However, LyondellBasell has not tested for the presence of listed chemical substances.

This product contains no known chemicals regulated by New Jersey's Worker and Community Right to Know Act.

No components are subject to the Massachusetts Right to Know Act.

This product contains no known chemicals regulated by Pennsylvania's Right to Know Act.

Other international regulations

Global Inventory Status

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

*Additional Explanatory Status Statements follow the table, as necessary.

Country/Region	Inventory	Status Description
Australia	AICS	Compliant
Canada	DSL	Compliant
China	IECSC	Compliant
Europe	REACH	See REACH Compliance Statement
Japan	ENCS	Compliant
Korea	KECI	Compliant
New Zealand	NZIoC	Compliant
Philippines	PICCS	Compliant
United States of America	TSCA	Compliant
Taiwan	TCSCA	Compliant

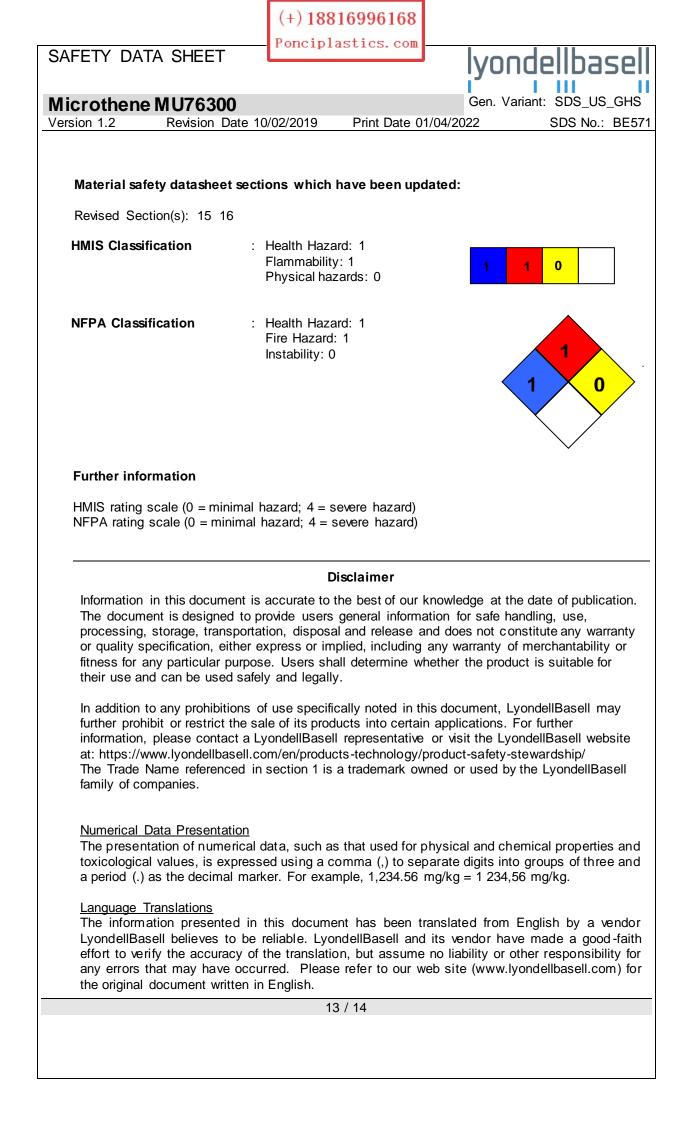

REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that the chemical substance in this product has been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

Contact product.safety@lyb.com for additional global inventory information.
