Microthene MN72200	Gen. Variant: SDS_US_GHS		
Version 1.2 Revision Date 10	0/01/2019 Print Date 01/05/2022 SDS No.: BE6518		
1. IDENTIFICATION OF THE SUBST	ANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING		
Trade name :	Microthene MN72200		
CAS Number: : Chemical characterization :	9002-88-4 Polyethylene Homopolymer		
Chemical name :	Polyethylene		
Synonyms :	Ethene, homopolymer, PE		
Identified uses :	Manufacture of plastic articles by injection molding, extrusion or other conversion process.		
Prohibited uses :	FDA Class III medical devices; European class III medical devices; Health Canada class IV Medical Devices; Applications involving permanent implantation into the body; Life-sustaining medical applications		
<u>Company Address</u> Equistar Chemicals, LP LyondellBasell Tower, Suite 300 1221 McKinney St. P.O. Box 2583	Company Telephone Customer Service 888 777-0232 product.safety@lyb.com		
Houston Texas 77252-2583 Emergency telephone number EQUISTAR 800-245-4532	Ľ		
E-mail address : Responsible/issuing person	product.safety@lyb.com		
2. HAZARDS IDENTIFICATION			
GHS Classification			
Combustible dust			
Label elements			
Signal word	: Warning		
Hazard Statements	: If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.

licrothene MN72200	Gen. Variant: SDS_US_GHS
Version 1.2 Revision Date	10/01/2019 Print Date 01/05/2022 SDS No.: BE65
If swallowed	: Adverse health effects due to ingestion are not anticipated.
Notes to physician	
Symptoms	: Inhalation of process fumes and vapors may cause soreness the nose and throat and coughing.
Hazards	: Dust contact with the eyes can lead to mechanical irritation. Molten polymer may cause thermal burns.
Treatment	: Treatment of overexposure should be directed at the control symptoms and the clinical condition of the patient.
FIRE-FIGHTING MEASURES Suitable extinguishing media	: SMALL FIRE: Use dry chemical, CO2, or water spray.
	<ul> <li>LARGE FIRES:</li> <li>Use water spray hose nozzles from a safe location.</li> </ul>
Unsuitable extinguishing media	: None known.
Specific hazards during fire fighting	<ul> <li>Keep away from heat and sources of ignition. Dust particles from this product are combustible particulate solids that present a flash fire or explosion hazard when suspended in air. Polymer dust layer melts on the hot surface before ignition concur In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, carbon dioxide and unburned hydrocarbor (smoke).</li> </ul>
Special protective equipment for fire-fighters	: Wear approved positive pressure self-contained breathing apparatus and firefighter protective clothing.
Further information	<ul> <li>Combustible particulate solid, will decompose under fire conditions.</li> <li>Calorific Value: 8000 - 11000 kcal/kg</li> <li>Fight fire from safe distance with hose lines or monitor nozzle Heat from fire may melt, decompose polymer, and generate flammable vapors.</li> <li>Move containers from fire area if it can be done without risk. Evacuate immediately in the event of opening of storage</li> </ul>

	container pressure relief devices or discoloration of container. Always stay away from tanks engulfed in fire. Do not attempt to get on top of storage containers involved in fire. Cool storage containers with large volumes of water even after fire is out.
6. ACCIDENTAL RELEASE MEAS	URES
Personal precautions	<ul> <li>Equip responders with proper protection. Creates dangerous slipping hazard on any hard smooth surface.</li> <li>Equip emergency responders with proper personal protective equipment (PPE) Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Potential combustible dust hazard. Polymer particles create slipping hazard on hard smooth surfaces.</li> <li>May Contain trace amounts of light hydrocarbons, compounds of oxidation, aldehydes and acids In case of material degradation use appropriate respiratory equipment.</li> </ul>
Environmental precautions	For personal protection see section 8. : Do not flush into surface water or sanitary sewer system.
Methods for containment / Methods for cleaning up	<ul> <li>On land, sweep/shovel into suitable disposal containers or vacuum using equipment which avoids ignition risk. On water, material is insoluble; collect and contain as any solid.</li> <li>All recovered material should be packaged, labeled, transported and disposed of or reclaimed in conformance with applicable laws and regulations and in conformance with good engineering practices. Reclaim where possible.</li> </ul>
7. Handling and storage	
Precautions for safe handling	-
Advice on safe handling	<ul> <li>Avoid dust accumulation in enclosed space.</li> <li>Use dust collection systems designed per NFPA 654 to avoid dust accumulation.</li> </ul>

SAFETY DATA SHEET	Ponciplastics.com		
	lyondellbasell		
Microthene MN72200	Gen. Variant: SDS_US_GHS		
Version 1.2 Revision Date 1	0/01/2019 Print Date 01/05/2022 SDS No.: BE6518		
	Avoid generating dust; fine dust suspended in air and in the presence of an ignition source is a potential dust explosion hazard. Polymer dust layer melts on the hot surface before ignition can occur Hot surface temperature shall be limited to less than 270°C to avoid direct ignition of a dust cloud. Static discharge (spark), or other ignition sources, in high dust environments may ignite the dust and result in a dust explosion Electrostatic charge may build during conveying or handling. Equipment handling polymer should be conductive and grounded (earthed) and bonded. Metal containers involved in the transfer of this material should be grounded and bonded. All electrical equipment should conform to applicable electric codes and regulatory requirements for areas handling combustible dusts. After handling, always wash hands thoroughly with soap and water. When bringing the material to processing temperatures vapors may develop may condense in the exhaust ventilation. See section 10.		
Fire-fighting class	<ul><li>Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling.</li><li>Polymer will burn but does not easily ignite.</li></ul>		
Conditions for safe storage, in			
Requirements for storage areas and containers	<ul> <li>Store in a dry location.</li> <li>Use good housekeeping practices during storage, transferring and handling. Process enclosures and adequate ventilation should be used to avoid excessive dust accumulation.</li> <li>Degradation can occur because of exposure to temperature, light and oxidizing agent: trace amounts of light hydrocarbons, compounds of oxidation, aldehydes and acids can be generated.</li> <li>Store away from excessive heat and away from strong oxidizing agents.</li> <li>Keep container closed to prevent contamination.</li> <li>Take measures to prevent the build up of electrostatic charge.</li> <li>Maximum allowed storage temperatures of 50°C for maximum 60 days.</li> <li>Avoid direct insufflation of air.</li> <li>Avoid direct sunlight and contact with sources of heat.</li> <li>Store either in the closed original containers in well ventilated area or in silos with vents.</li> </ul>		
	: Avoid temperatures above 140 °F, direct sunlight and contact

## State Reporting

This material does not contain listed substance(s) known to the State of California to cause cancer, birth defects, or other reproductive harm that would require warning under the California Proposition 65 State Drinking Water and Toxic Enforcement Act.

However, LyondellBasell has not tested for the presence of listed chemical substances.

This product contains no known chemicals regulated by New Jersey's Worker and Community Right to Know Act.

No components are subject to the Massachusetts Right to Know Act.

This product contains no known chemicals regulated by Pennsylvania's Right to Know Act.

### Other international regulations

#### **Global Inventory Status**

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

\*Additional Explanatory Status Statements follow the table, as necessary.

Country/Region	Inventory	Status Description
Australia	AICS	Compliant
Canada	DSL	Compliant
China	IECSC	Compliant
Europe	REACH	See REACH Compliance Statement
Japan	ENCS	Compliant
Korea	KECI	Compliant
New Zealand	NZIoC	Compliant
Philippines	PICCS	Compliant
United States of America	TSCA	Compliant
Taiwan	TCSCA	Compliant

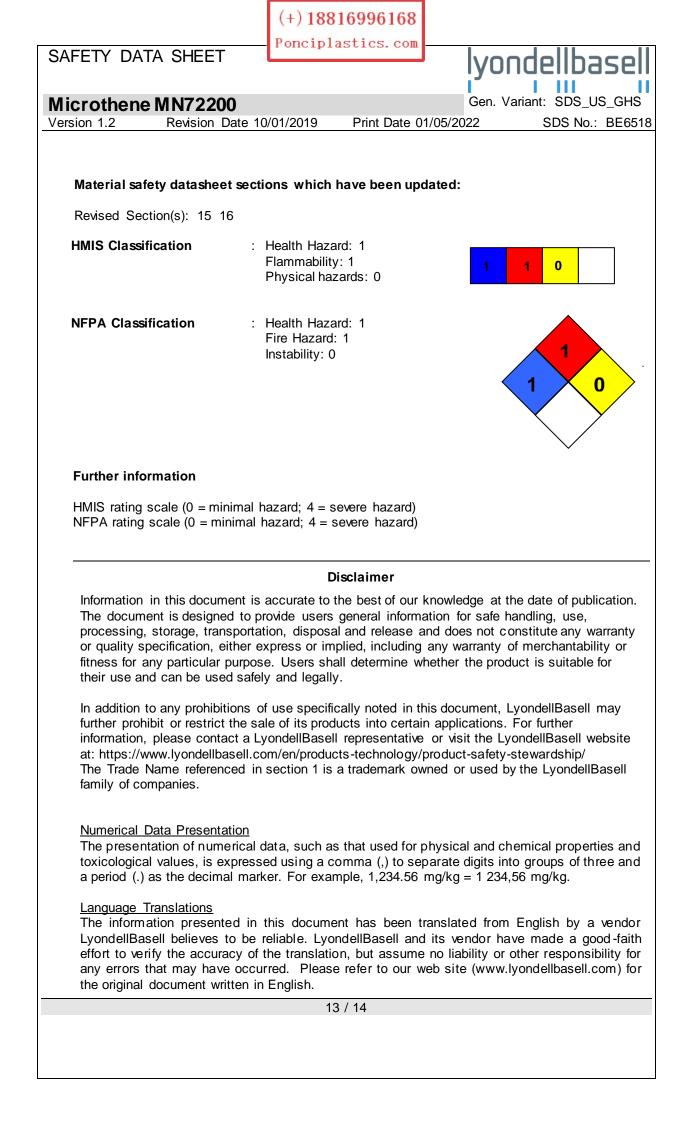

### REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that the chemical substance in this product has been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

Contact product.safety@lyb.com for additional global inventory information.
