### Hifax CA 60 G NERO

Version 1.4

Print Date 01/06/2022

SDS No.: BE7918

lyondellbasell

Gen. Variant: SDS AT

### Classification (REGULATION (EC) No 1272/2008)

Revision Date 05/24/2020

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

### 2.2 Label elements

### Labeling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

### 2.3 Other hazards

If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB).

### 3. Composition/information on ingredients

### 3.2 Mixtures

lyondellbasell

Gen. Variant: SDS AT

| Materials that can  | TWA | 3 mg/m3    | US (ACGIH) |
|---------------------|-----|------------|------------|
| be formed when      |     | respirable | 2005       |
| handling this       |     |            |            |
| product: Non-       |     |            |            |
| specified (inert or |     |            |            |
| nuisance) dust      |     |            |            |

Consult local authorities for acceptable exposure limits.

### 8.2 Exposure controls

### Engineering measures

Follow the recommendations in international standard NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

### Personal protective equipment

| Respiratory protection :   | Use process enclosures, local exhaust ventilation, or other<br>engineering controls to keep airborne levels below<br>recommended exposure limits.<br>When workers are facing concentrations above the exposure<br>limit they must use appropriate certified respirators.<br>Use appropriate respiratory protection where atmosphere<br>exceeds recommended limits.<br>Where workers could be exposed to dust concentrations<br>above the exposure limit they must use appropriate certified<br>respirators. |
|----------------------------|---|
| Hand protection :          | Wear gloves that provide thermal protection where there is a potential for contact with heated material.  |
| Eye and face protection :  | Dust service goggles should be worn to prevent mechanical injury or other irritation to eyes due to airborne particles which may result from handling this product.   |
| Skin and body protection : | Wear suitable protective clothing.  |
|                            | 7 / 16  |

#### **REACh** status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that all substances in this preparation have been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

#### Other international regulations

#### **Global Inventory Status**

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

\*Additional Explanatory Status Statements follow the table, as necessary.

| Country/Region           | Inventory | Status Description             |
|--------------------------|-----------|--------------------------------|
| Australia                | AICS      | Compliant                      |
| Canada                   | DSL       | Compliant                      |
| China                    | IECSC     | Compliant                      |
| Europe                   | REACH     | See REACH Compliance Statement |
| Japan                    | ENCS      | Compliant                      |
| Korea                    | KECI      | Compliant                      |
| New Zealand              | NZIoC     | Compliant                      |
| Philippines              | PICCS     | Not Compliant                  |
| United States of America | TSCA      | Compliant                      |
| Taiwan                   | TCSCA     | Compliant                      |

#### Numerical Data Presentation

The presentation of numerical data, such as that used for physical and chemical properties and toxicological values, is expressed using a comma (,) to separate digits into groups of three and a period (.) as the decimal marker. For example, 1,234.56 mg/kg = 1.234,56 mg/kg.

### Language Translations

The information presented in this document has been translated from English by a vendor LyondellBasell believes to be reliable. LyondellBasell and its vendor have made a good-faith effort to verify the accuracy of the translation, but assume no liability or other responsibility for any errors that may have occurred. Please refer to our web site (www.lyondellbasell.com) for the original document written in English.
