Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	3 mg/m3 respirable	US (ACGIH) 2005	

Consult local authorities for acceptable exposure limits.

## Exposure controls

## **Engineering measures**

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654

Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

## Personal protective equipment

Respiratory protection	:	Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use appropriate respiratory protection where atmosphere exceeds recommended limits. Where workers could be exposed to dust concentrations above the exposure limit they must use appropriate certified respirators.
Hand protection	:	Wear gloves that provide thermal protection where there is a potential for contact with heated material.
Eye and face protection	:	Dust service goggles should be worn to prevent mechanical injury or other irritation to eyes due to airborne particles which may result from handling this product.
Skin and body protection	:	Wear suitable protective clothing.
Hygiene measures	:	Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the hazards and/or potential hazards that may be encountered during use.

	Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities. Take off contaminated clothing and wash before reuse.
9. PHYSICAL AND CHEMICAL PI	ROPERTIES
Appearance	: Pellets.
Color	: black
Odor	: Slight.
Odor Threshold	: No value available.
Flash point	: No Data Available.
Lower explosion limit	: The minimum explosive concentration (MEC) for polymer dust varies according to particle size distribution.
Upper explosion limit	: Not applicable.
Flammability (solid, gas)	: Polymer will burn but does not easily ignite.
Oxidizing properties	: Not considered an oxidizing agent.
Autoignition temperature	: > 300 °C
Decomposition temperature	: not determined
Melting point/range	: 50 - 170 °C
Boiling point/boiling range	: Not applicable.
Vapor pressure	: Not applicable.
Density	: < 1 g/cm3
Water solubility	: Insoluble.
Partition coefficient: n- octanol/water	: No Data Available.
Viscosity, dynamic	: Not applicable.
Relative vapor density	: Not applicable.
Evaporation rate	: Not applicable.
Explosive properties	: No Data Available.

Other Information	: No additional information available.		
10. STABILITY AND REACTIVITY	1		
Reactivity	: No known reactivity hazards.		
Chemical stability	: Stable under normal conditions.		
Hazardous reactions	: Will not occur.		
Conditions to avoid	: Avoid contact with strong oxidizers, excessive heat, sparks or open flame.		
Materials to avoid	: Material may be softened by some hydrocarbons.		
Hazardous decomposition products	: Not expected to decompose under normal conditions.		
Thermal decomposition	Carbon monoxide, olefinic and paraffinic compounds, trace amounts of organic acids, ketones, aldehydes and alcohols may be formed.		
1. TOXICOLOGICAL INFORMA Acute toxicity	ΓΙΟΝ		
Acute oral toxicity	: Not classified		
Acute inhalation toxicity	: Not classified		
Acute dermal toxicity	: Not classified		
Skin corrosion/irritation	: Not a skin irritant.		
Serious eye damage/eye irritation	Not an eye irritant. Mechanical irritation is possible.		
Respiratory or skin sensitization	Not classified		
Chronic toxicity			
Carcinogenicity	: Not classified		

SAFETY DATA SHEET	Ponciplastics.com	lyondellbasell
	(	
Hifax DRL 781P T1 C1271 Version 1.0 Revision Date 20		Gen. Variant: SDS_TH 022-01-06 SDS No.: BE34006
	Not classified	
Reproductive toxicity	Net close field	
Effects on or via lactation	Not classified Not classified	
Target Organ Systemic : Toxicant - Single exposure	The substance or mixture is organ toxicant, single expos	s not classified as specific target sure.
Target Organ Systemic : Toxicant - Repeated exposure	The substance or mixture is organ toxicant, repeated ex	s not classified as specific target posure.
Aspiration hazard :	Not applicable.	
hazard	Not classified Not classified	
Persistence and degradability		
Biodegradability :	Not expected to be biodegra	adable.
Bioaccumulative potential		
<b>Bioaccumulation</b> :	This material is not expecte	d to bioaccumulate.
Mobility in soil		
Mobility :	no data available	
Other adverse effects		
Environmental fate and : pathways	This material is not volatile	and insoluble in water.

SAFETY DATA SHEET			lyondellb	asell		
Hifax DRL 781P T1 C12716			Gen. Variant: SDS	атн		
Version 1.0 Revision Date 20		Print Date 20		BE34006		
Version 1.0 Revision Date 20	21-04-02 1		022-01-00 SDS No	DE34000		
Additional ecological : information	<ul> <li>cal : Ecotoxicity is expected to be minimal based on the low water solubility of polymers. No data available on this product. However, birds, fish and other wildlife may eat pellets which may obstruct their intestinal tracts.</li> </ul>					
13. Disposal considerations						
Waste treatment methods						
Product :	All recovered n	naterial shoul	ld he nackaged Jabeled			
	: All recovered material should be packaged, labeled, transported and disposed of or reclaimed in conformance with applicable laws and regulations and in conformance with good engineering practices. Reclaim where possible. Recycle if possible.					
14. TRANSPORT INFORMATION Not regulated for transport						
15. REGULATORY INFORMATION						
Other international regulations						
Global Inventory Status The ingredients of this product are compliant with the following chemical inventory requirements or exemptions. *Additional Explanatory Status Statements follow the table, as necessary.						
Country/Region	Inventory	Status De				
Australia Canada	AICS DSL	Compliant Compliant				
Canada China	IECSC	Compliant				
Europe	REACH		CH Compliance Statement			
Japan	ENCS	Compliant	•			
Korea	KECI	Compliant				
New Zealand	NZIOC	Compliant				
Philippines	PICCS	Compliant				
United States of America	TSCA	Compliant				
Taiwan	TCSCA	Compliant

First Edition					
	Disclaimer				
The document is designed to prov processing, storage, transportatio or quality specification, either exp fitness for any particular purpose.	Information in this document is accurate to the best of our knowledge at the date of publication. The document is designed to provide users general information for safe handling, use, processing, storage, transportation, disposal and release and does not constitute any warranty or quality specification, either express or implied, including any warranty of merchantability or fitness for any particular purpose. Users shall determine whether the product is suitable for their use and can be used safely and legally.				
In addition to any prohibitions of use specifically noted in this document, LyondellBasell may further prohibit or restrict the sale of its products into certain applications. For further information, please contact a LyondellBasell representative or visit the LyondellBasell website at: https://www.lyondellbasell.com/en/products-technology/product-safety-stewardship/ The Trade Name referenced in section 1 is a trademark owned or used by the LyondellBasell family of companies.					
<u>Numerical Data Presentation</u> The presentation of numerical data, such as that used for physical and chemical properties and toxicological values, is expressed using a comma (,) to separate digits into groups of three and a period (.) as the decimal marker. For example, 1,234.56 mg/kg = 1 234,56 mg/kg.					
Language Translations The information presented in this document has been translated from English by a vendor LyondellBasell believes to be reliable. LyondellBasell and its vendor have made a good-faith effort to verify the accuracy of the translation, but assume no liability or other responsibility for any errors that may have occurred. Please refer to our web site (www.lyondellbasell.com) for the original document written in English.
