	Platinum Gen. Variant: SDS_US_GHS
Hifax TYC 1152P YBTA Version 1.1 Revision Date	
1. IDENTIFICATION OF THE SUB	STANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING
Trade name	: Hifax TYC 1152P YBTA Platinum
CAS Number:	: Mixture
Chemical name	: Compounded polyolefin
Synonyms	: Polyolefin, Compounded polymer
Identified uses	: Manufacture of plastic articles by injection molding, extrusion or other conversion process.
Prohibited uses	: FDA Class III medical devices; European class III medical
	devices; Health Canada class IV Medical Devices;
	Applications involving permanent implantation into the body; Life-sustaining medical applications
Company Address	Company Telephone
Equistar Chemicals, LP	Customer Service 888 777-0232

SAFETY DATA SHEET	Ponciplastics.com	lyondellbasell		
Hifax TYC 1152P YBTA	Platinum	Gen. Variant: SDS_US_GHS		
Version 1.1 Revision Date 1				
No additional information avail	lable.			
3. COMPOSITION/INFORMATION C	N INGREDIENTS			
Mixtures				
Components				
Chemical name	CAS-No.	<u>Weight %</u>		
Proprietary blend of polyolefinic polymers	Mixture	80.0 - 100.0 %		
Contains: Additives, stabilizers a	and fillers			
4. FIRST AID MEASURES				
General advice	: Take proper precautions to before attempting rescue an	ensure your own health and safety d providing first aid.		
If inhaled	 Remove person to fresh air. If signs/symptoms continue, get medical attention. In case of excessive inhalation of fumes that may be generated during heating of this material, move the person to fresh air. Obtain medical attention. Keep person warm, if necessary give Cardio-Pulmonary Resuscitation (CPR) 			
In case of skin contact	 If molten material contacts the skin, immediately flush with large amounts of water to cool the affected tissue and polymer. Do not attempt to peel polymer from skin as this will remove the skin. Obtain immediate emergency medical attention if burn is deep or extensive. 			
In case of eye contact	: Flush eyes thoroughly with with with a medical attention if discomformed attention if discomformed attention atten	water for several minutes and seek ort persists.		
	 In case of eye contact with molten polymer: Continuously flush eye(s) with cool running water for at least 15 minutes. Beyond flushing, DO NOT attempt to remove the material adherent to the eye(s). Immediately seek medical attention. 			
If swallowed	Adverse health effects due t	o ingestion are not anticipated.		
	2 / 14			

Notes to physician Symptoms : Inhalation of process fumes and vapors may cause sorener the nose and throat and coughing. Hazards : Dust contact with the eyes can lead to mechanical initation Molten polymer may cause thermal burns. Treatment : Treatment of overexposure should be directed at the contros symptoms and the clinical condition of the patient. 5. FIRE-FIGHTING MEASURES : SMALL FIRE: Use dry chemical, CO2, or water spray. Suitable extinguishing media : SMALL FIRE: Use dry chemical, CO2, or water spray. : LARGE FIRES: Use water spray hose nozzles from a safe location. Unsuitable extinguishing media : None known. specific hazards during fire fighting : Keep away from heat and sources of ignition. In case of the hazardous decomposition products may be produced such as: Carbon monxide, carbon dioxide and unburned hydrocarb (smoke). Special protective equipment for fire-fighters : Wear approved positive pressure self-contained breathing apparatus and firefighter protective clothing. Further information : Combustible particulate sold, will decompose onlymer, and generate flammable wapors. Move containers from fire area if it can be done without risk Evacuate immediately in the event of opening of storage container presure relief devices or discordantion of contain Always stay away from tanks engulfed in fire. Do not attempt to get on top of storage containers involved fire.		(+) 18816996168

ersion 1.1 Revision Date	10/01/2019 Print Date 01/06/2022 SDS No.: BE13
ACCIDENTAL RELEASE MEAS	URES
Personal precautions	 Equip responders with proper protection. Creates dangerous slipping hazard on any hard smooth surface. Equip emergency responders with proper personal protective equipment (PPE) Avoid generating dust. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Potential combustible dust hazard. Polymer particles create slipping hazard on hard smooth surfaces.
Environmental precautions	: Do not flush into surface water or sanitary sewer system.
Methods for containment / Methods for cleaning up	 On land, sweep/shovel into suitable disposal containers or vacuum using equipment which avoids ignition risk. On water, material is insoluble; collect and contain as any solid. All recovered material should be packaged, labeled, transported and disposed of or reclaimed in conformance with applicable laws and regulations and in conformance with good engineering practices. Reclaim where possible.
Handling and storage	
Precautions for safe handlin	g
Advice on safe handling	 Material is in a pellet form. If converted to small particles during further processing, handling, or by other means, may form combustible dust concentrations in air. Avoid dust accumulation in enclosed space. Use dust collection systems designed per NFPA 654 to avoid dust accumulation. Avoid generating dust; fine dust suspended in air and in the presence of an ignition source is a potential dust explosion hazard. Static discharge (spark), or other ignition sources, in high dust environments may ignite the dust and result in a dust explosion Electrostatic charge may build during conveying or handling. Equipment handling polymer should be conductive and

Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	3 mg/m3 respirable	US (ACGIH) 2005	
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	15 mg/m3 total dust	US (OSHA) 2005	
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	5 mg/m3 respirable	US (OSHA) 2005	

Consult local authorities for acceptable exposure limits.

Exposure controls

Engineering measures

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654 Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Personal protective equipment

Respiratory protection	 Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use appropriate respiratory protection where atmosphere exceeds recommended limits. Where workers could be exposed to dust concentrations above the exposure limit they must use appropriate certified respirators. 	
Hand protection	: Wear gloves that provide thermal protection where there is a potential for contact with heated material.	
Eye and face protection	: Dust service goggles should be worn to prevent mechanical

SAFETY DATA SHEET	Ponciplastics. com					
Hifax TYC 1152P YBTA P Version 1.1 Revision Date 10	Platinum Gen. Variant: SDS_US_GHS					
Partition coefficient: n- octanol/water Viscosity, dynamic	No Data Available.Not applicable.					
Relative vapor density	: Not applicable.					
Evaporation rate	: Not applicable.					
Explosive properties	: No Data Available.					
Other Information	: No additional information available.					
10. STABILITY AND REACTIVITY						
Reactivity	: No known reactivity hazards.					
Chemical stability	: Stable under normal conditions.					
Hazardous reactions	Will not occur.					
Conditions to avoid	: Avoid contact with strong oxidizers, excessive heat, sparks or open flame.					
Materials to avoid	Material may be softened by some hydrocarbons.					
· · · · · · · · · · · · · · · · · · ·	Not expected to decompose under normal conditions.					
products Thermal decomposition	 Carbon monoxide, olefinic and paraffinic compounds, trace amounts of organic acids, ketones, aldehydes and alcohols may be formed. 					
11. TOXICOLOGICAL INFORMATIO	N					
Acute toxicity						
Acute oral toxicity	Not classified					
Acute inhalation toxicity	Not classified					
Acute dermal toxicity	: Not classified					
Skin corrosion/irritation	Not a skin irritant.					
Serious eye damage/eye irritation	Not an eye irritant. Mechanical irritation is possible.

Persistence and degradability				
Biodegradability	: Not expected to be biodegradable.			
Bioaccumulative potential				
Bioaccumulation	: This material is not expected to bioaccumulate.			
Mobility in soil				
Mobility	: no data available			
Other adverse effects				
Environmental fate and pathways	: This material is not volatile and insoluble in water.			
Other information				
Additional ecological information	: Ecotoxicity is expected to be minimal based on the low water solubility of polymers. No data available on this product. However, birds, fish and other wildlife may eat pellets which may obstruct their intestinal tracts.			
13. Disposal considerations Waste treatment methods				
Product	: All recovered material should be packaged, labeled, transported and disposed of or reclaimed in conformance with applicable laws and regulations and in conformance with good engineering practices. Reclaim where possible. Recycle if possible.			
14. TRANSPORT INFORMATION	: This material is classified as a Non-hazardous Material by RCRA.

SAFETY DATA SHEET

Version 1.1

Revision Date 10/01/2019

Print Date 01/06/2022

Gen. Variant: SDS_US_GHS

SDS No.: BE13588

Not regulated for transport

15. REGULATORY INFORMATION

TSCA 12b

No substances are subject to TSCA 12(b) export notification requirements.

Significant New Use Rules (SNUR)

No substances are subject to a Significant New Use Rule.

SARA 302/304

This product contains no known chemicals regulated under SARA 302/304.

SARA 311/312

Based upon available information, this material is classified as the following health and/or physical hazards according to Section 311 & 312:

Combustible dust

SARA 313

This product contains no known chemicals regulated under SARA 313.

State Reporting

This material may contain trace levels of the following chemical substance(s) regulated under California Proposition 65. However, LyondellBasell has not tested for the presence of listed chemical substances. It is the responsibility of the California business owner to develop his or her own regulatory compliance plan. Contact Product Safety for further information at product.safety@lyb.com.

Substance	CASRN	Type of Tox	icity		
		Carcinogen	Developmental	Repro-Male	Repro-

1333-86-4	Carbon Black	

This product contains the following chemicals regulated by Massachusetts' Right to Know Law:

14807-96-6	Talc, Magnesium Silicate
546-93-0	Magnesium Carbonate

This product contains the following chemicals regulated by Pennsylvania's Right to Know Act:

14807-96-6	Talc, Magnesium Silicate
1333-86-4	Carbon Black
557-05-1	Zinc Stearate
1344-28-1	Aluminum oxide

Other international regulations

Global Inventory Status

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

*Additional Explanatory Status Statements follow the table, as necessary.

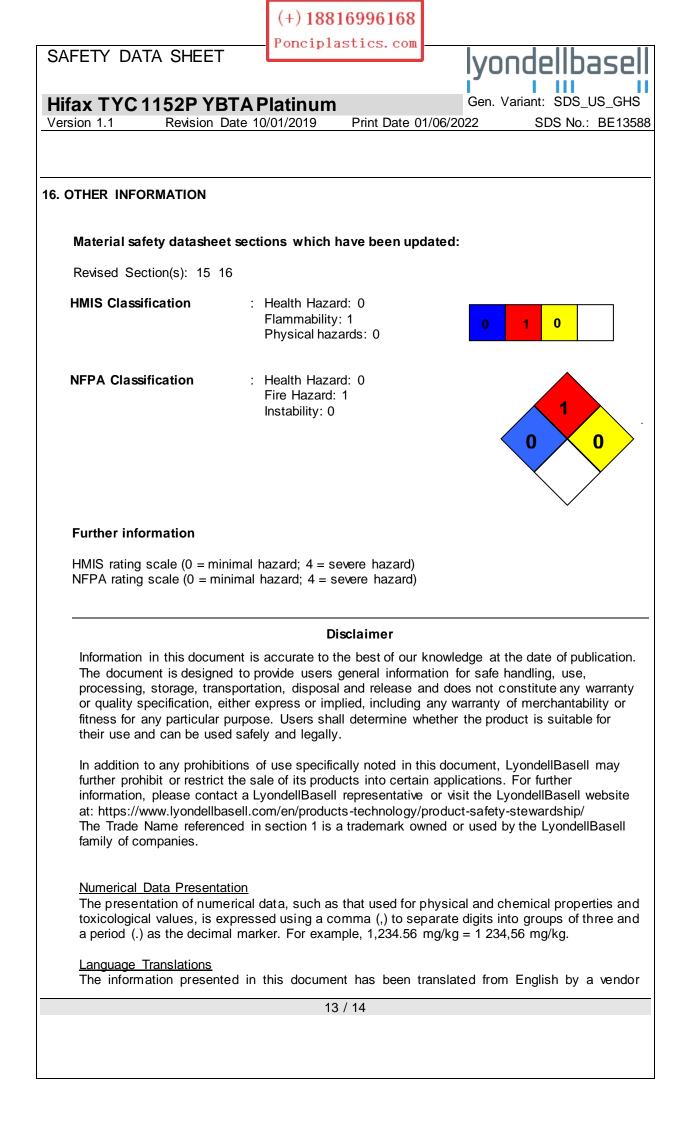

Country/Region	Inventory	Status Description
Australia	AICS	Compliant
Canada	DSL	Compliant
China	IECSC	Compliant
Europe	REACH	See REACH Compliance Statement
Japan	ENCS	Compliant
Korea	KECI	Compliant
New Zealand	NZIoC	Compliant
Philippines	PICCS	Compliant
United States of America	TSCA	Compliant
Taiwan	TCSCA	Compliant

REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that all substances in this preparation have been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

Contact product.safety@lyb.com for additional global inventory information.
