| Materials that can<br>be formed when<br>handling this<br>product: Non-<br>specified (inert or<br>nuisance) dust | TWA | 15 mg/m3<br>total dust | US (OSHA)<br>2005  |  |
| Materials that can<br>be formed when<br>handling this<br>product: Non-<br>specified (inert or<br>nuisance) dust | TWA | 5 mg/m3<br>respirable  | US (OSHA)<br>2005  |  |

Consult local authorities for acceptable exposure limits.

### **Exposure controls**

### Engineering measures

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654 Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

### Personal protective equipment

| Respiratory protection  | <ul> <li>Use process enclosures, local exhaust ventilation, or other<br/>engineering controls to keep airborne levels below<br/>recommended exposure limits.</li> <li>When workers are facing concentrations above the exposure<br/>limit they must use appropriate certified respirators.</li> <li>Use appropriate respiratory protection where atmosphere<br/>exceeds recommended limits.</li> <li>Where workers could be exposed to dust concentrations<br/>above the exposure limit they must use appropriate certified<br/>respirators.</li> </ul> |  |
|-------------------------|---|--|
| Hand protection         | : Wear gloves that provide thermal protection where there is a potential for contact with heated material.  |  |
| Eye and face protection | : Dust service goggles should be worn to prevent mechanical   |  |

Magnesium Carbonate 546-93-0 7429-90-5 Aluminum Powder

This product contains the following chemicals regulated by Massachusetts' Right to Know Law:

| 14807-96-6 | Talc, Magnesium Silicate   |
|------------|----------------------------|
| 546-93-0   | Magnesium Carbonate        |
| 7429-90-5  | Aluminum Powder            |
| 1308-38-9  | Chromium (III) Oxide Green |

This product contains the following chemicals regulated by Pennsylvania's Right to Know Act:

| 14807-96-6 | Talc, Magnesium Silicate |
|------------|--------------------------|
| 7429-90-5  | Aluminum Powder          |
| 1333-86-4  | Carbon Black             |

### Other international regulations

#### **Global Inventory Status**

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

\*Additional Explanatory Status Statements follow the table, as necessary.

| Country/Region           | Inventory | Status Description             |
|--------------------------|-----------|--------------------------------|
| Australia                | AICS      | Compliant                      |
| Canada                   | DSL       | Compliant                      |
| China                    | IECSC     | Compliant                      |
| Europe                   | REACH     | See REACH Compliance Statement |
| Japan                    | ENCS      | Compliant                      |
| Korea                    | KECI      | Compliant                      |
| New Zealand              | NZIoC     | Compliant                      |
| Philippines              | PICCS     | Compliant                      |
| United States of America | TSCA      | Compliant                      |
| Taiwan                   | TCSCA     | Not Compliant                  |

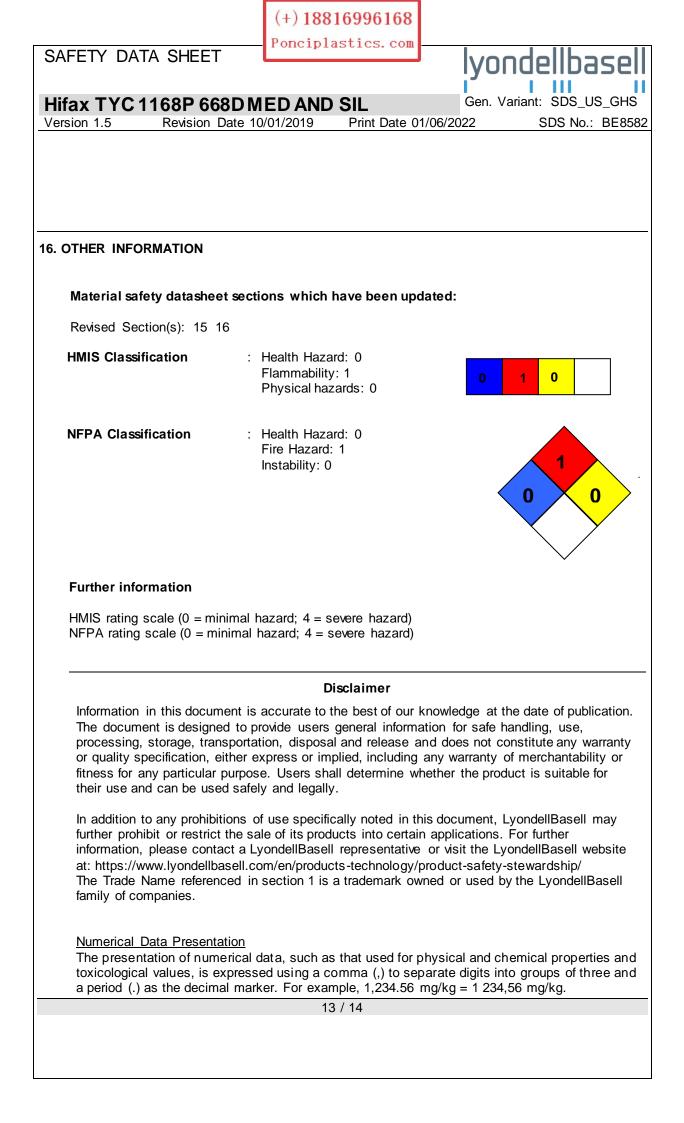

#### REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that all substances in this preparation have been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

\*This product contains one or more substances having volume restrictions. Contact Product Safety for additional information.

Contact product.safety@lyb.com for additional global inventory information.
