	e 10/02/2019 Print Date 01/06/2022 SDS No.: BE55
. IDENTIFICATION OF THE SUB	BSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING
Trade name	: Hifax TYC 773P YZ9A CARBON BLK
CAS Number:	: Mixture
Chemical name	: Compounded polyolefin
Synonyms	: Polyolefin, Compounded polymer
Identified uses	: Manufacture of plastic articles by injection molding, extrusion or other conversion process.
Prohibited uses	: FDA Class III medical devices; European class III medical
	devices; Health Canada class IV Medical Devices;
	Applications involving permanent implantation into the body;
	Life-sustaining medical applications
<u>Company Address</u> Equistar Chemicals, LP	Company Telephone Customer Service 888 777-0232

4. FIRST AID MEASURES						
General advice	· Taka proper produitions to	oncure your own health and actety				
General advice	: Take proper precautions to ensure your own health and safety before attempting rescue and providing first aid.					
If inhaled	 Remove person to fresh air. If signs/symptoms continue, get medical attention. 					
	In case of excessive inhalation of fumes that may be generated during heating of this material, move the person to fresh air. Obtain medical attention. Keep person warm, if necessary give Cardio-Pulmonary					
	Resuscitation (CPR)					
	W 10 - 2 - 1 - 2 - 2					
In case of skin contact	: If molten material contacts the skin, immediately flush with large amounts of water to cool the affected tissue and polymer.					
	Do not attempt to peel poly skin.	mer from skin as this will remove the				
	Obtain immediate emergen or extensive.	cy medical attention if burn is deep				
In case of eye contact	: Flush eyes thoroughly with water for several minutes and seek					
	medical attention if discomf					
	 In case of eye contact with molten polymer: Continuously flush eye(s) with cool running water for at least 15 					
	minutes. Beyond flushing, DO NOT attempt to remove the material					
	adherent to the eye(s). Immediately seek medical a	attention.				
	,					
If swallowed	Adverse health effects due	to ingestion are not anticipated.

Version 1.2 Revision Date	10/02/2019 Print Date 01/06/2022 SDS No.: BE556				
Notes to physician Symptoms	: Inhalation of process fumes and vapors may cause soreness i the nose and throat and coughing.				
Hazards	: Dust contact with the eyes can lead to mechanical irritation. Molten polymer may cause thermal burns.				
Treatment	: Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.				
5. FIRE-FIGHTING MEASURES					
Suitable extinguishing media	: SMALL FIRE: Use dry chemical, CO2, or water spray.				
	: LARGE FIRES: Use water spray hose nozzles from a safe location.				
Unsuitable extinguishing media	: None known.				
Specific hazards during fire fighting	 Keep away from heat and sources of ignition. In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke). 				
Special protective equipment for fire-fighters	 Wear approved positive pressure self-contained breathing apparatus and firefighter protective clothing. 				
Further information	 Combustible particulate solid, will decompose under fire conditions. 				
	Calorific Value: 8000 - 11000 kcal/kg Fight fire from safe distance with hose lines or monitor nozzles Heat from fire may melt, decompose polymer, and generate flammable vapors.				
	Move containers from fire area if it can be done without risk. Evacuate immediately in the event of opening of storage container pressure relief devices or discoloration of container. Always stay away from tanks engulfed in fire.				
	Do not attempt to get on top of storage containers involved in fire.				
	Cool storage containers with large volumes of water even afte fire is out.

Hifax TYC 773P YZ9A C Version 1.2 Revision Date		
. ACCIDENTAL RELEASE MEAS	SURES	
Personal precautions	: Equip responders with proper protection. Creates dangerous slipping hazard on any hard smooth	
	surface. Equip emergency responders with proper personal protective equipment (PPE)	
	Avoid generating dust. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).	
	Potential combustible dust hazard. Polymer particles create slipping hazard on hard smooth surfaces.	
Environmental precautions	: Do not flush into surface water or sanitary sewer system.	
Methods for containment / : On land, sweep/shovel into suitable disposal containers of vacuum using equipment which avoids ignition risk. On water, material is insoluble; collect and contain as an solid.		
	Solid. All recovered material should be packaged, labeled, transported and disposed of or reclaimed in conformance with applicable laws and regulations and in conformance with good engineering practices. Reclaim where possible.	
. Handling and storage		
Precautions for safe handlin Advice on safe handling	g : Material is in a pellet form.	
	If converted to small particles during further processing, handling, or by other means, may form combustible dust concentrations in air.	
	Avoid dust accumulation in enclosed space. Use dust collection systems designed per NFPA 654 to avoid dust accumulation.	
	Avoid generating dust; fine dust suspended in air and in the presence of an ignition source is a potential dust explosion hazard.	
	Static discharge (spark), or other ignition sources, in high dus environments may ignite the dust and result in a dust explosion	
	Electrostatic charge may build during conveying or handling. Equipment handling polymer should be conductive and

Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	15 mg/m3 total dust	US (OSHA) 2005	
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	5 mg/m3 respirable	US (OSHA) 2005	

Consult local authorities for acceptable exposure limits.

Exposure controls

Engineering measures

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654 Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Personal protective equipment

Respiratory protection	 Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use appropriate respiratory protection where atmosphere exceeds recommended limits. Where workers could be exposed to dust concentrations above the exposure limit they must use appropriate certified respirators.
Hand protection	: Wear gloves that provide thermal protection where there is a potential for contact with heated material.
Eye and face protection	: Dust service goggles should be worn to prevent mechanical

Iyondellbase

Hifax TYC 773P YZ9A CARBON BLK Revision Date 10/02/2019

Version 1.2

Gen. Variant: SDS US GHS SDS No.: BE5564

Print Date 01/06/2022

Not regulated for transport

15. REGULATORY INFORMATION

TSCA 12b

No substances are subject to TSCA 12(b) export notification requirements.

Significant New Use Rules (SNUR)

No substances are subject to a Significant New Use Rule.

SARA 302/304

This product contains no known chemicals regulated under SARA 302/304.

SARA 311/312

Based upon available information, this material is classified as the following health and/or physical hazards according to Section 311 & 312:

Combustible dust

SARA 313

This product contains no known chemicals regulated under SARA 313.

State Reporting

This material may contain trace levels of the following chemical substance(s) regulated under California Proposition 65. However, LyondellBasell has not tested for the presence of listed chemical substances. It is the responsibility of the California business owner to develop his or her own regulatory compliance plan. Contact Product Safety for further information at product.safety@lyb.com.
