Version 1.4

Revision Date 05/31/2020

Print Date 01/07/2022

SDS No.: BE7551

lyondellbasell

Gen. Variant: SDS AT

Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

2.2 Label elements

Labeling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

2.3 Other hazards

If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB).

3. Composition/information on ingredients

3.2 Mixtures

Components

| Chemical name | CAS-No. EC-No. | Classification (REGULATION (EC) No 1272/2008) | Weight % |
|---|-------------------|---|---------------|
| Proprietary blend of polyolefinic polymers | Mixture | Not Classified | 50.0 - 80.0 % |

Contains: Additives, stabilizers and fillers

4. First aid measures

4.1 Description of first-aid measures

| General advice | : Take proper precautions to ensure your own health and safety before attempting rescue and providing first aid. |
|----------------|---|
| lf inhaled | Remove person to fresh air. If signs/symptoms continue, get medical attention. In case of excessive inhalation of fumes that may be generated during heating of this material, move the person to fresh air. |
| | 2 / 16 |
| | |

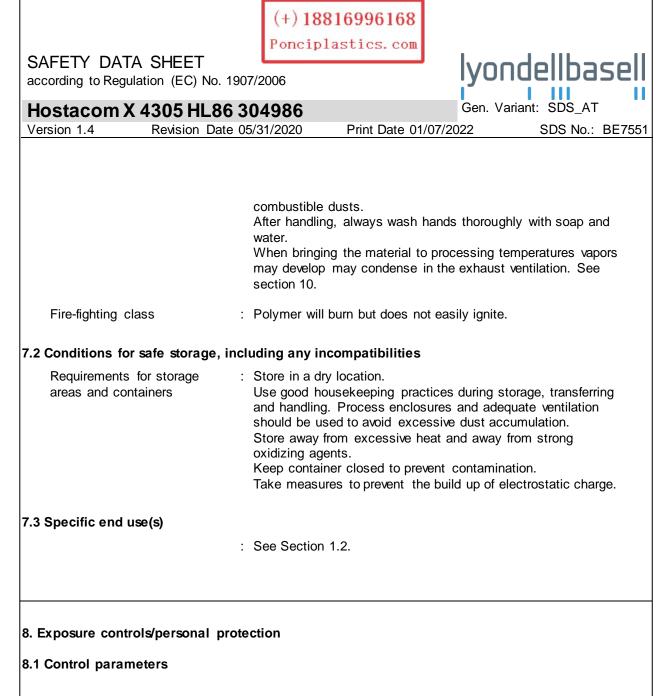

| According to Regulation (EC) No. 7 | |
|------------------------------------|---|
| /ersion 1.4 Revision Date | |
| In case of skin contact | Obtain medical attention. Keep person warm, if necessary give Cardio-Pulmonary Resuscitation (CPR) If molten material contacts the skin, immediately flush with large amounts of water to cool the affected tissue and polymer. Do not attempt to peel polymer from skin as this will remove |
| | the skin. Obtain immediate emergency medical attention if burn is deep or extensive. |
| In case of eye contact | : Flush eyes thoroughly with water for several minutes and seek medical attention if discomfort persists. |
| | In case of eye contact with molten polymer: Continuously flush eye(s) with cool running water for at least 15 minutes. Beyond flushing, DO NOT attempt to remove the material adherent to the eye(s). Immediately seek medical attention. |
| If swallowed | : Adverse health effects due to ingestion are not anticipated. |
| | nd effects, both acute and delayed |
| Symptoms | : Inhalation of process fumes and vapors may cause soreness in the nose and throat and coughing. |
| Hazards | : Dust contact with the eyes can lead to mechanical irritation. Molten polymer may cause thermal burns. |
| .3 Indication of any immediate r | medical attention and special treatment needed |
| Treatment | : Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient. |
| . Fire-fighting measures | |
| .1 Extinguishing media | |
| Suitable extinguishing media | : SMALL FIRE: Use dry chemical, CO2, or water spray. |

| nuisance) dust | | | |

Consult local authorities for acceptable exposure limits.

8.2 Exposure controls

Engineering measures

Follow the recommendations in international standard NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Personal protective equipment

| Respiratory protection | : | Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use appropriate respiratory protection where atmosphere exceeds recommended limits. Where workers could be exposed to dust concentrations above the exposure limit they must use appropriate certified respirators. |
|--------------------------|---|---|
| Hand protection | : | Wear gloves that provide thermal protection where there is a potential for contact with heated material. |
| Eye and face protection | : | Dust service goggles should be worn to prevent mechanical injury or other irritation to eyes due to airborne particles which may result from handling this product. |
| Skin and body protection | : | Wear suitable protective clothing. |

REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that all substances in this preparation have been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

Other international regulations

Global Inventory Status

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

*Additional Explanatory Status Statements follow the table, as necessary.

| Country/Region | Inventory | Status Description |
|--------------------------|-----------|--------------------------------|
| Australia | AICS | Compliant |
| Canada | DSL | Compliant |
| China | IECSC | Compliant |
| Europe | REACH | See REACH Compliance Statement |
| Japan | ENCS | Compliant |
| Korea | KECI | Compliant |
| New Zealand | NZIoC | Compliant |
| Philippines | PICCS | Compliant |
| United States of America | TSCA | Compliant |
| Taiwan | TCSCA | Compliant |

Numerical Data Presentation

The presentation of numerical data, such as that used for physical and chemical properties and toxicological values, is expressed using a comma (,) to separate digits into groups of three and a period (.) as the decimal marker. For example, 1,234.56 mg/kg = 1.234,56 mg/kg.
