2. HAZARDS IDENTIFICATION				
Emergency Overview				
If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air. At process temperatures irritating fumes may be produced. Molten polymer may cause thermal burns. Slipping hazard if spilled on hard smooth walking surface. The material can accumulate static charges which could be a source of ignition.				
GHS-Classification				
Not a hazardous substance or	mixture according to the Glo	bally Harmonized System (GHS).		
GHS-Labeling				
Not a hazardous substance or	mixture according to the Glo	bally Harmonized System (GHS).

Keep person warm, if necessary give Cardio-Pulmonary Resuscitation (CPR) If molten material contacts the skin, immediately flush with large amounts of water to cool the affected tissue and polymer. Do not attempt to peel polymer from skin as this will remove the
skin. Obtain immediate emergency medical attention if burn is deep or extensive.
Flush eyes thoroughly with water for several minutes and seek medical attention if discomfort persists.
In case of eye contact with molten polymer: Continuously flush eye(s) with cool running water for at least 15 minutes. Beyond flushing, DO NOT attempt to remove the material adherent to the eye(s). Immediately seek medical attention.
Adverse health effects due to ingestion are not anticipated.
Inhalation of process fumes and vapors may cause soreness in the nose and throat and coughing.
Dust contact with the eyes can lead to mechanical irritation. Molten polymer may cause thermal burns.
Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.
SMALL FIRE: Use dry chemical, CO2, or water spray.
LARGE FIRES: Use water spray hose nozzles from a safe location.
None known.

### **Occupational Exposure Limits**

Components	CAS-No.	Туре	Limit Value	Basis Revision Date	Additional Information
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust		TWA	10 mg/m3 inhalable	US (ACGIH) 2005	
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust		TWA	3 mg/m3 respirable	US (ACGIH) 2005	

Consult local authorities for acceptable exposure limits.

#### Exposure controls

#### Engineering measures

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654

Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

#### Personal protective equipment

Respiratory protection

: Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below

# **15. REGULATORY INFORMATION**

#### Other international regulations

#### **Global Inventory Status**

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

\*Additional Explanatory Status Statements follow the table, as necessary.

Country/Region	Inventory	Status Description
Australia	AICS	Compliant
Canada	DSL	Compliant
China	IECSC	Compliant
Europe	REACH	See REACH Compliance Statement
Japan	ENCS	Compliant
Korea	KECI	Compliant
New Zealand	NZIoC	Compliant
Philippines	PICCS	Compliant
United States of America	TSCA	Compliant
Taiwan	TCSCA	Compliant

#### REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that the chemical substance in this product has been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

Contact product.safety@lyb.com for additional global inventory information.
