| Version 1.1 Revision Dat  | te 10/01/2019 Print Date 01/08/2022 SDS No.: BE1605  |
| 1. IDENTIFICATION OF THE SU   | BSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING   |
| Trade name  | : Pro-fax EP495K   |
| CAS Number:<br>Chemical characterization  | : 9010-79-1<br>: Polypropylene copolymer   |
| Chemical name   | : 1-Propene, Polymer with Ethene   |
| Synonyms  | : Ethylene-Propylene copolymer, 1-Propene-Ethylene-<br>Copolymer   |
| Identified uses   | : Manufacture of plastic articles by injection molding, extrusion or other conversion process.   |
| Prohibited uses   | <ul> <li>FDA Class III medical devices; European class III medical<br/>devices; Health Canada class IV Medical Devices;<br/>Applications involving permanent implantation into the body;<br/>Life-sustaining medical applications</li> </ul> |
| <u>Company Address</u><br>Equistar Chemicals, LP<br>LyondellBasell Tower, Suite<br>1221 McKinney St.<br>P.O. Box 2583<br>Houston Texas 77252-2583 |  |
| <u>Emergency telephone num</u><br>EQUISTAR 800-245-4532   | <u>ıber</u>  |
| E-mail address<br>Responsible/issuing person  | : product.safety@lyb.com   |
| 2. HAZARDS IDENTIFICATION   |  |
| GHS Classification  |  |
| Combustible dust  |  |
| Label elements  |  |
| Signal word   | : Warning  |
| Hazard Statements   | : If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.   |

| Ethylene-propylene copolymer   | 9010-79-1   | 98.0 - 100.0 %  |  |
| Contains: Stabilizers          |   |   |  |
|                                |   |   |  |
| 4. FIRST AID MEASURES          |   |   |  |
| General advice                 | : Take proper precautions to e before attempting rescue an  | ensure your own health and safety<br>d providing first aid. |  |
| If inhaled                     | <ul> <li>Remove person to fresh air. If signs/symptoms continue, get medical attention.</li> <li>In case of excessive inhalation of fumes that may be generated during heating of this material, move the person to fresh air. Obtain medical attention.</li> <li>Keep person warm, if necessary give Cardio-Pulmonary Resuscitation (CPR)</li> </ul> |   |  |
| In case of skin contact        | <ul> <li>If molten material contacts the skin, immediately flush with<br/>large amounts of water to cool the affected tissue and polymer.<br/>Do not attempt to peel polymer from skin as this will remove the<br/>skin.</li> <li>Obtain immediate emergency medical attention if burn is deep<br/>or extensive.</li> </ul>                           |   |  |
| In case of eye contact         | : Flush eyes thoroughly with water for several minutes and seek medical attention if discomfort persists.   |   |  |
|                                | <ul> <li>In case of eye contact with molten polymer:<br/>Continuously flush eye(s) with cool running water for at least 15<br/>minutes.</li> <li>Beyond flushing, DO NOT attempt to remove the material<br/>adherent to the eye(s).</li> <li>Immediately seek medical attention.</li> </ul>   |   |  |
| If swallowed :                 | Adverse health effects due t  | o ingestion are not anticipated.                            |  |
|                                | 2 / 13  |   |  |

Consult local authorities for acceptable exposure limits.

#### **Exposure controls**

#### Engineering measures

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654 Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

## Personal protective equipment

| Respiratory protection  | <ul> <li>Use process enclosures, local exhaust ventilation, or other<br/>engineering controls to keep airborne levels below<br/>recommended exposure limits.</li> <li>When workers are facing concentrations above the exposure<br/>limit they must use appropriate certified respirators.</li> <li>Use appropriate respiratory protection where atmosphere<br/>exceeds recommended limits.</li> <li>Where workers could be exposed to dust concentrations<br/>above the exposure limit they must use appropriate certified<br/>respirators.</li> </ul> |
|-------------------------|---|
| Hand protection         | : Wear gloves that provide thermal protection where there is a potential for contact with heated material.  |
| Eye and face protection | : Dust service goggles should be worn to prevent mechanical   |

Skin and body protection : Wear suitable protective clothing. : Selection of appropriate personal protective equipment should Hygiene measures be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the hazards and/or potential hazards that may be encountered during use. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities. Take off contaminated clothing and wash before reuse. 9. PHYSICAL AND CHEMICAL PROPERTIES Pellets. Appearance : Color Translucent to white · Odor Slight. Odor Threshold : No value available. Flash point No Data Available. Lower explosion limit The minimum explosive concentration (MEC) for polymer dust varies according to particle size distribution. Upper explosion limit : Not applicable. Flammability (solid, gas) : Polymer will burn but does not easily ignite. Oxidizing properties : Not considered an oxidizing agent. Autoignition temperature : > 300 °C Decomposition temperature : not determined Melting point/range : 50 - 170 °C Boiling point/boiling range : Not applicable.

Vapor pressure : Not applicable.

Density: < 1 g/cm3</th>Water solubility: Insoluble.

SAFETY DATA SHEET

Version 1.1

Revision Date 10/01/2019

Print Date 01/08/2022

SDS No.: BE16057

Gen. Variant: SDS US GHS

# TSCA 12b

No substances are subject to TSCA 12(b) export notification requirements.

## Significant New Use Rules (SNUR)

No substances are subject to a Significant New Use Rule.

## SARA 302/304

This product contains no known chemicals regulated under SARA 302/304.

## SARA 311/312

Based upon available information, this material is classified as the following health and/or physical hazards according to Section 311 & 312:

## Combustible dust

## **SARA 313**

This product contains no known chemicals regulated under SARA 313.

#### State Reporting

This material does not contain listed substance(s) known to the State of California to cause cancer, birth defects, or other reproductive harm that would require warning under the California Proposition 65 State Drinking Water and Toxic Enforcement Act.

However, LyondellBasell has not tested for the presence of listed chemical substances.

This product contains no known chemicals regulated by New Jersey's Worker and Community Right to Know Act.

No components are subject to the Massachusetts Right to Know Act.

This product contains no known chemicals regulated by Pennsylvania's Right to Know Act.

#### Other international regulations

#### **Global Inventory Status**

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

\*Additional Explanatory Status Statements follow the table, as necessary.

| Country/Region | Inventory | Status Description             |  |  |
