

CELANYL[®] A2 GF33 BK 2000/UV/1 CELANYL®

Product information

Resin Identification Part Marking Code	PA66-GF33 >PA66-GF33<			ISO 1043 ISO 11469	
Typical mechanical properties	d	ry/cond.			
Izod notched impact strength, 23°C	1:	3/-	kJ/m²	ISO 180/14	4
Physical/Other properties	d	ry/cond.			
Density	1390	D/-	kg/m³	ISO 1183	3
Injection					
Drying Recommended		yes			
Drying Temperature			°C		
Drying Time, Dehumidified Dryer		2 - 4	h		
Processing Moisture Content		≤0.15	%		
Melt Temperature Optimum		295	°C		
Min. melt temperature		285	°C		
Max. melt temperature		305	°C		
Screw tangential speed		≤0.2			
Mold Temperature Optimum		100	°C		
Min. mould temperature			°C		
Max. mould temperature		120	°C		
Characteristics					
Processing	Injection Moulding				

FIDLESSING	Injection woulding
Special characteristics	U.V. stabilised or stable to weather

Printed: 2025-05-29

Page: 1 of 1

NOTICE TO USERS: Values shown are based on testing of laboratory test specimens and represent data that fall within the standard range of properties for natural material. These values alone do not represent a sufficient basis for any part design and are not intended for use in establishing maximum, minimum, or ranges of values for specification purposes. Colourants or other additives may cause significant variations in data values. Properties of moulded parts can be influenced by a wide variety of factors including, but not limited to, material selection, additives, part design not intended for use in medical or dental implants. Regardless of any such product expressly identified as medical grade (including by MT® product designation or otherwise), Celanese's products are not intended for use in medical or dental implants. Regardless of any such product designation, any determination of the suitability of a particular material and part design for any use contemplated by the users and the manner of such use is the sole responsibility of the users, who must assure themselves that the material as subsequently processed meets the needs of their particular product or use. To the best of our knowledge, the information contained in this publication is accurate; however, we do not assume any liability whatsoever for the accuracy and completeness of such information. The information contained in this publication as a promise or guarantee of specific properties of our products. It is the sole responsibility of the users to investigate whether any existing patents are infringed by the use of the materials mentioned in this publication. Moreover, there is a need to reduce human exposure to many materials the lowest that texist. We recommend that persons intending to rely on any recommendation or to use any equipment, processing technique or material mentioned in this publication should satisfy themselves that they can meet all applicable safety and health standards. We strongly recommend that users seek and adhere to the m
